

Flexible Environments

EganSystem Office

- No Floor Space Required
- Easy Re-location
- Flexible Storage

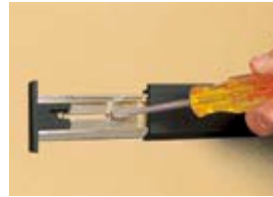

One install limitless reconfigurations...

What is EganSystem Office?

Walls serve as the foundation for EganSystem Office. Track mounting overhead storage and presentation, display and memo boards are the key.

Components are easily moved in minutes, providing quick and easy arrangement of the workspace as requirements change. No install or moving crew expenses. No lost time. No packing. No unloading. No Problem.

Track Mounted

Easy one time track installation creates a highly flexible and cost effective mounting system. Create and re-create office configurations quickly and efficiently.

Unique Track Design

The continuous track hanger design provides the ability to quickly reconfigure while taking maximum advantage of available wall space.

Heavy Weight Champion

The track and hanger handle a load of up to 60 lbs. of books or storage per shelf and slides easily along the track to a new location on the wall.

Egan Security Lock

In situations where security or prevention of movement is required Egan Security Locks on GripTrack, lock single units, or a series of EganSystem Office products, to the track. This securing system is so effective that they are pre-approved for installation in California State institutions where seismic activity is a concern.

The unique tool for generating, capturing and presenting ideas.

EVS is a matte-finish material, available in EVS Write or EVS Projection surface finishes and is offered on lightweight honeycomb, steel (accepts magnetic accessories) or SmoothMount EganWall laminations. EVS is guaranteed to clean and offers high-performance durability.

Honeycomb Core

Take the EVS Test-Drive

1. Write on the EVS surface with a dry-erase marker.
2. Wait a minute, then erase. Use the amazing EganCloth for the best results... it eliminates ghosting and dry-erase dust.
3. If you used a permanent marker by mistake, grab a dry-erase marker and use it to scribble directly over the permanent marking, then just wipe it clean.
4. EVS Projection also features a low-gloss surface that is ideal for projection.
