Egan Linked Markerboards and Tackboards

- EVS Magnetic
- Porcelain
- Aluminium Frames
- Large Scale

EVS Linked Markerboards

EVSTM

Egan Linked Markerboards are standard with EVS Write Magnetic, the guaranteed-to-clean dry-erase surface that accepts magnetic accessories. See the back page for more details on EVS.

EganCloth™

The perfect markerboard cleaning tool. Our fabulous 16" x 12" EganCloth virtually eliminates dry-erase dust and ghosting, and keeps EVS and porcelain surfaces spotless. Available individually or in packages of 12 or 24.

EVS Linked Markerboards with Square Corners

Square-mitered aluminium frames in a variety of custom colors.

Linked Connection

Linked boards are identified by segments: outside left (**OL**), inside board (**IB**), and outside right (**OR**). The segments are joined with link molding. Sizes up to 48" x 96" are shipped pre-assembled.

Design & Finish Options

Egan Markerboards adapt to any design environment. Frame options include:

- Eased-curve aluminium frames
- Square-mitered aluminium frames

Custom colors are also available, see the Color & Finish Guide in the current 'Egan Price & Specification Guide'.

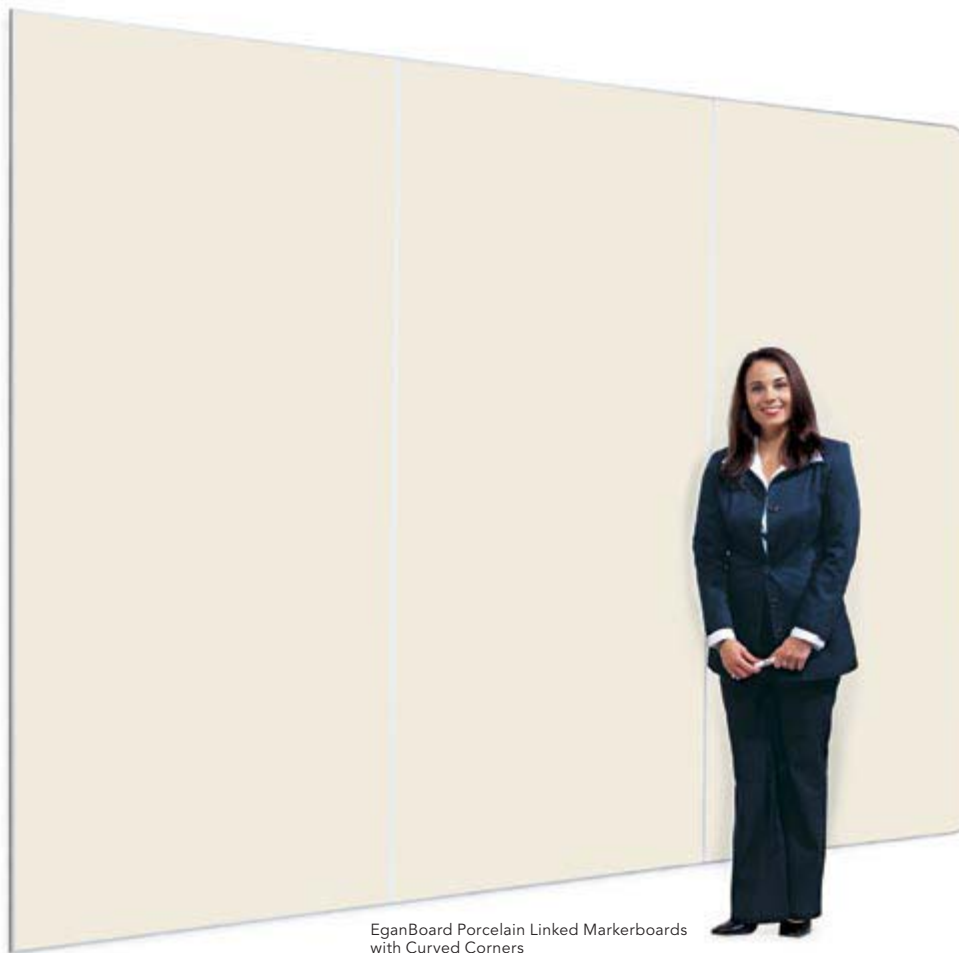

Custom Color

Custom Response

Custom sizes are available through our Custom Response Program. The Custom Response Program is designed to encourage specialized product development. Our manufacturing systems provide for variations and custom solutions.

EganBoard Porcelain Linked Markerboards

EganBoard Porcelain Linked Markerboards with Curved Corners

Porcelain

Egan also offers the traditional EganBoard Porcelain on steel writing surface.

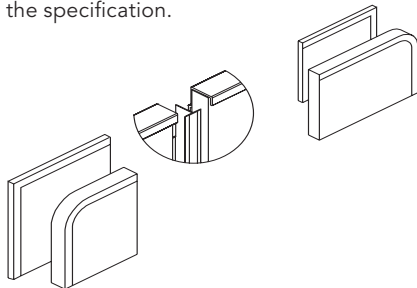

EganGrip

Add an EganGrip to increase markerboard functionality. EganGrip combines a roller and gravity to form a paper grip. Just push up to insert. To remove, simply curl up and out. 21.5" – 93.5" wide, with five mount options.

Quality Combination

Link any combination of Linked Markerboards to create a superior quality writing communication wall 24" through 96" high to specified width.

Simply start your link with a Left Segment Markerboard. Add any combination of Inside Segment Markerboards. Finish with a Right Segment Markerboard to complete the specification.

Custom Color Frames

Eased-curve aluminium frames in a variety of custom colors.

Markerboards and Tackboards

Egan has the definitive line of dry-erase markerboards, combination writing/projection boards and tackboards. See Egan's 'Price and Specification Guide' for further details.

Egan Fabric Tackboards Aluminium Frames

EganFabric is standard

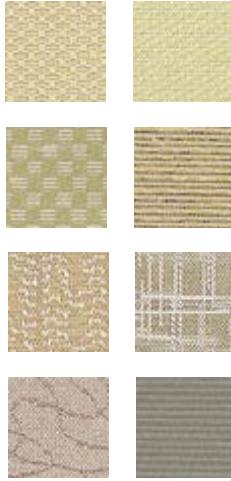

Add a matching tackboard to complete the picture. Egan Tackboards are covered in EganFabric, a stable polyester fabric, in a neutral color that complements the full range of standard and Custom Color finish choices.

Egan has a synergy program with Maharam Fabrics to offer thousands of optional tackable fabrics. See pricelist for details.

C.O.M. (Customer's Own Material) requirements may be coordinated through Customer Service. A sample is required for approval prior to order acceptance. See the current 'Egan Price & Specification Guide'.

The Egan Dust-Free Whiteboard Solution

The unique tool for generating, capturing and presenting ideas.

EVS is a matte-finish material, available in EVS Write or EVS Projection surface finishes and is offered on lightweight honeycomb, steel (accepts magnetic accessories) or SmoothMount EganWall laminations. EVS is guaranteed to clean and offers high-performance durability.

Honeycomb
Core

Both EVS and EganBoard Porcelain Linked Markerboards ship with specified mounting bracket, an EganCloth™, four markers (red, green, brown and black) and one pen tray per configuration (not shown).

EVS and EganBoard porcelain are designed with slightly different shades of white. When installed side-by-side, the difference in hue is noticeable.

Take the EVS Test-Drive

1. Write on the EVS surface with a dry-erase marker.
2. Wait a minute, then erase. Use the amazing EganCloth for the best results... it eliminates ghosting and dry-erase dust.
3. If you used a permanent marker by mistake, grab a dry-erase marker and use it to scribble directly over the permanent marking, then just wipe it clean.
4. EVS Projection also features a low-gloss surface that is ideal for projection.
