Egan GlassWrite Mobiles

Dry-erasable, translucent privacy

Crystal clear or translucent Egan GlassWrite Mobiles are the hot solution when glass is part of your specification. Built on Egan's V-Series mobile platform (page 4) with tempered glass inserts and a design or pattern of your creation. Create grids to assist in lettering, maps to locate opportunities, brand enhancing visuals or exciting environmental imagery. EganINK—durable letters/lines/graphics is an Egan exclusive innovation offering colorful high resolution graphics.

Brilliant ideas

Egan V-Series mobiles are available with tempered GlassWrite Panels suitable for shared or two-sided annotations. Tackable fabric lower panels increase the design options for this versatile mobile solution.

Let the light shine in

Stimulate the environment

Playful photographs or colorful accents can really add tremendous value to any interior design situation. Egan GlassWrite mobiles move about the room as needed to provide signage, message boards, meeting tools or simply add a smile. Available widths: 30", 36" and 48". Available heights: 54", 60", and 66".

Custom by design

Create privacy partitions on the fly while maintaining the natural light of the area. Teams can form intimate areas without losing touch with the rest of the office. The translucent quality of Egan GlassWrite helps to make objects more than a foot away indistinguishable, while dry-erase notes are clearly legible from both sides.

V-Series Mobiles

Linkable partitions, large format, lots of design options

V-Series Mobiles are space dividers and partitions that can nest together. Options include guaranteed-to-clean Egan VersaSurface dry-erase that accepts magnetic accessories and Maharam tackable fabric. Offered in full height or split height panels with sturdy EganMetallic bases.

Available widths:
30", 36", 48", 60"

Available heights:
54", 60", 66", 72"

Egan Screen Door

Control traffic, create privacy, easily

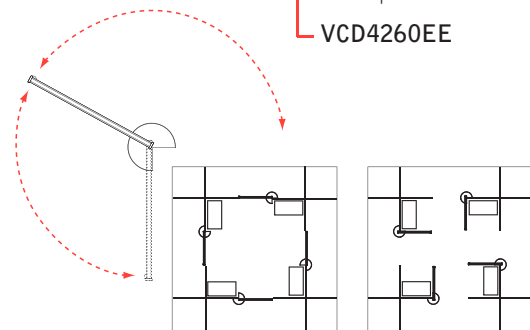

Working in teams makes sense, managing workspace for teams and individuals requires flexibility.

Egan Screen Doors control traffic and provide privacy, offering creative functionality and an array of appealing design options. Egan Screen Door is based on the Egan Lite Mobile platform (page 6) and may also be specified in custom widths in volume orders.

Egan Screen Door has the flexibility to fit into any office panel system installation.

Universal fit trip-free 360° rotating base. Available in 54" or 60" heights, 36", 42" and 48" widths, and custom widths in volume orders. Guaranteed-to-clean Egan VersaSurface dry-erase surface and thousands of fabric options to integrate with all panel system passage ways.

Door swings on a low-resistance spherical caster. Optional perforated steel lower panel at a standard 24"h permits air circulation.

42" w x 60" h, tackable fabric 2 sides, lower perforated steel panel. Custom built to match customer's existing installation and interior design
