30", 36", 42", 48"

Standard EVS surface both sides.

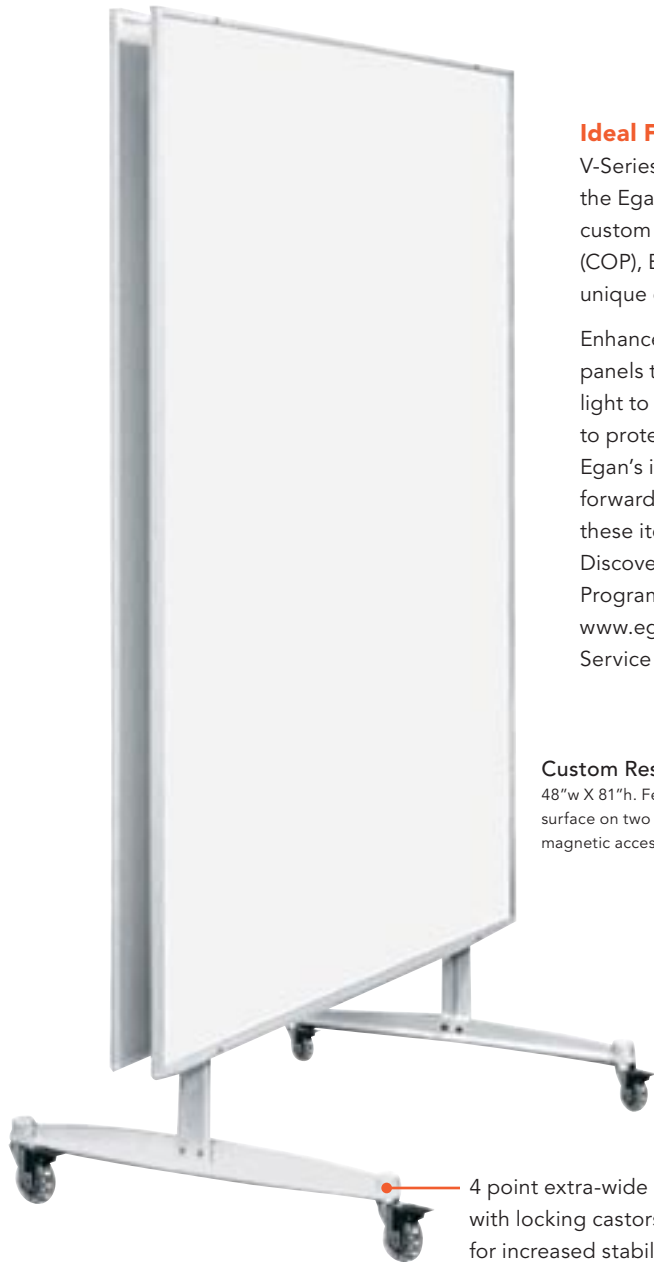

Store up to five 26" w x 36" h VersaBoards or 36" w x 48" h EganSystem boards.

Optional tackable fabric on reverse side.

Custom Response

Ideal For Customization

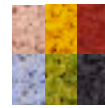

V-Series Mobiles are perfect candidates for the Egan Custom Response Program, where custom fabric (COM), Customer's Own Panels (COP), EVS Lightweight, Custom Color, or unique dimensions may be required.

Enhance your environment with translucent panels to create privacy partitions that permit light to pass through; use transparent panels to protect and display promotional posters. Egan's innovative engineering team look forward to working with you to customize these items to fulfill your requirements. Discover the Egan Custom Response Program, visit www.egan.com/custom or call Customer Service at 1-800-263-2387.

Custom Response

48" w X 81" h. Features EVS Projection surface on two sides and accepts magnetic accessories.

Custom Color (CC)

The unique tool for generating, capturing and presenting ideas.

EVS is a matte-finish material, available in EVS Write or EVS Projection surface finishes and is offered on lightweight honeycomb, steel (accepts magnetic accessories) or SmoothMount EganWall laminations. EVS is guaranteed to clean and offers high-performance durability.

EVS on Honeycomb Core

Take the EVS Test-Drive

1. Write on the EVS surface with a dry-erase marker.
2. Wait a minute, then erase. Use the amazing EganCloth for the best results... it eliminates ghosting and dry-erase dust.
3. If you used a permanent marker by mistake, grab a dry-erase marker and use it to scribble directly over the permanent marking, then just wipe it clean.
4. EVS Projection also features a low-gloss surface that is ideal for projection.
