“Lightweight and
easy to move...
Incredible!”

Introducing V-Series Lite

Base Options

- Low profile, trip free base
- Narrow or wide to suit your application
- Teflon glides
- Locking castors

Panel Design Options

- Natural cork
- Custom stain cork
- Tackable fabrics
- Thousands of optional fabrics from Maharam

EVS Write

- Guaranteed-to-clean
- Dry-erase surface

Trip-Free Base

- Low profile
- Ideal for high-traffic areas

Anodized Aluminum Frames

- Clean design lines
- Lightweight
- Durable construction
- Custom color available

EganSystem Office – Configuring EganSystem Track

Install Top Track at Desired Height

- Easy installation
- Recommended height: 81"
- Components easily suspend from track
- Easily reconfigured
- GripTrack option includes a built-in paper holder

Enhance with Lower Track

- Recommended height: 29"
- Supports Presentation Rails shown or Reference Shelves

Configure as an Office

- Unique track solution
- Track distributes weight
- Saves floor and desk space
- With GripTrack and Security Locks, shelves will swing, but are prevented from lifting off the track.
- OSHPD approved for use in the state of California.

EganSystem Office – Get A Move On!

Private office move completed.

Moments to Change

Within minutes, EganSystem Office lifts off the track. Transit from office to office is a simple task, requiring minimal time and personnel.

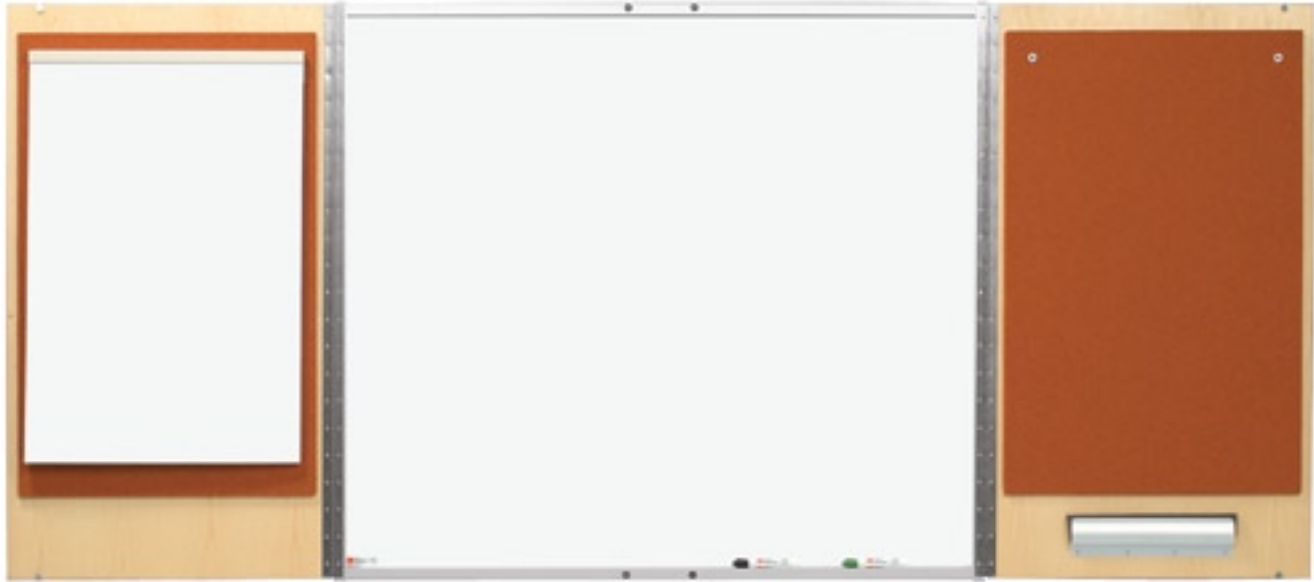

Moments to Move

- Easier than a box move.
- Faster than overnight.
- Valuable dry-erase notes are preserved.
- No need to pack/unpack shelves.

Private office, ready to move.

Finish Options

Wood Selection

Etex Selection

Custom Color or Custom Stain

Products available with custom color options may be specified in any solid color of your choice. Egan uses polymer coatings which may be specified in custom colors. Our color engineers are comfortable with most color specifying tools including Pantone Matching System™, Wilsonart® solid color, matte-finish laminates samples and customer supplied samples.

Egan offers custom stain applications. A sample species to match will be required. Natural variations are to be expected.

maharam Tackable Fabric

Tackable fabric products are standard in EganFabric, a stable polyester fabric, in a neutral color that complements the full range of standard and Custom Color finish choices.

Egan has a synergy program with Maharam Fabrics to offer thousands of additional tackable fabrics. C.O.M. (Customer's Own Material) requirements may be coordinated through Customer Service. A sample is required for approval prior to order acceptance. See Egan's current 'Price & Specification Guide'.

The unique tool for generating, capturing and presenting ideas.

EVS is a matte-finish material, available in EVS Write or EVS Presentation surface finishes and is offered on lightweight honeycomb, steel (accepts magnetic accessories) or SmoothMount EganWall laminations. EVS is guaranteed-to-clean and offers high-performance durability.

Honeycomb Core

Take the EVS Test-Drive

1. Write on the EVS surface with a dry-erase marker.
2. Wait a minute, then erase. Use the amazing EganCloth for the best results... it eliminates ghosting and dry-erase dust.
3. If you used a permanent marker by mistake, grab a dry-erase marker and use it to scribble directly over the permanent marking, then just wipe it clean.
4. EVS Presentation also features a low-gloss surface that is ideal for projection.
