

Versa Presentation Surfaces

Versa Presentation Surfaces incorporate EVS™—a combination of a guaranteed-to-clean dry-erase surface and an excellent matte white surface for projection—with special adhesives and stability forming backers. The surfaces are applied on most flat surfaces to create contemporary solutions for meeting, training and brainstorming that’s guaranteed-to-clean for 10 years. Versa Presentation Surfaces are offered in three flexible formats: VersaJot, VersaPro, and EganWall.

Egan VersaJot—Dry-Erasable

Designed for quick and easy installation, this amazing self-stick product applies to most surfaces in seconds. VersaJot is offered in square footage units cut, precisely to Customers Own Art patterns. Note: Volume pricing is available.

Specifying VersaJot

VersaJot is cut to your specifications for your custom requirement. Exact measurements are required.

** 1/4" radius corners are standard unless specified otherwise. Minimum radius corner is 1/8".

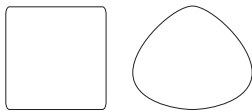

Patterns and Templates

- Egan Visual is pleased to accept COA patterns prepared in suitable vector file formats: AutoCad (DWG or DXF), Adobe Illustrator (EPS or AI), Corel Draw (EPS or CDR) to Encapsulated Postscript (EPS).
- Egan Visual will execute designs exactly as provided. Suitable vector files contain mathematical shapes. Embedding or "copying-and-pasting" a raster image such as a BMP, PSD, JPG, GIF, or PNG into a vector file is not suitable and will be subject to engineering charges.

All VersaJot orders are customized. Egan Visual does not accept responsibility for errors in customer instructions. Submitting a purchase order with a suitable vector file for VersaJot releases Egan Visual from responsibility for specification errors discovered upon installation.

VersaJot, Small

(VJ)

Small Format VersaJot is available in packages of 10 only

Code	VersaJot—Ten (10) Per Pack	Each	1–9 Packs	10–49 Packs	50+ Packs

EganWall Presentation Wallcovering

EganWall is designed to provide the highest quality dry-erase and projection surface available in a roll format. The Lexan™ backer lamination process assures that EganWall is suitable for a wide variety of applications including adhesion to existing flat walls where dry-erase notation or data projection are desired. Round columns and curved walls are not recommended. EganWall has a substantial glueable backing, and is the Versa Presentation Surface with ultimate installation possibilities.

EganWall

(EW)

EW P 54 10

EganWall Surface: EVS Projection Height: 54" h Length: 10 ft.

Adhesive will be applied on site by installer as appropriate for the individual situation.

* Responsible installation should be considered in all pricing. Quotations including EganWall and installation are provided by qualified wallcovering installers. Contact your Egan Rep or Egan Customer Service for further information.

EganSystem Frame Option

EganSystem Track is an ideal frame for VersaPro and EganWall presentation surface installations. EganSystem includes double-sided markerboards and tackboards as well as an array of presentation shelves and marker tray options to enhance your presentation environment. See pages 17-19. Horizontal runs of EganSystem Track install top and bottom and are complemented by vertical trim on the sides to complete the frame. Egan also encourages properly installed third party framing to match the existing decor.

EganSystem Trim Options

(EWHM top/bottom, EWVT left/right)

VersaPro and EganWall

Code	Description	Price
EWHTEM	60" lengths of EganSystem Track (top/bottom pair) EganMetalic (EM). Suitable for butt-joining to any length.	\$120
EWVT54	54" vertical trim for use with EganSystem Track. (left/right pair). Field cut for 48" installations.	\$90

96" lengths EMST also available page. See page 17.

See page 17 for additional products and ideas for implementing EganSystem with VersaPro and EganWall
